

## **Advertisement for Junior Research Fellow Position at IIT Gandhinagar**

### **Supervisor: Dr. Hari S. Ganesh**

Indian Institute of Technology Gandhinagar invites applications for the position of Junior Research Fellow (JRF) in the research group headed by Dr. Hari S. Ganesh (<https://iitgn.ac.in/faculty/chemical/fac-hari>). The title of the project is “Explicit Stochastic Model Predictive Control for an Energy System under Operational Uncertainties”.

### **Job Description and Expectations**

The candidate is expected to develop or implement explicit model predictive control on an energy system under operational uncertainties. Knowledge of Numerical Methods, Modeling and Simulation, Process Control, and Optimization is desirable. Computer programming skills in either MATLAB or Python is required.

### **Eligibility**

B.Tech/B.E. with valid GATE score or M.Tech./M.E. in Chemical Engineering, Electrical Engineering, Electronics Engineering, Instrumentation Engineering, Mechanical Engineering, Aerospace Engineering, or Civil Engineering with at least 70% marks or 7.0 CGPA.

### **Remuneration**

Rs. 31,000 per month + HRA (as applicable)

### **Duration**

1 year (extendable based on performance and/or funding availability).

### **Application Procedure**

Interested candidates are requested to apply through the following link: <https://iitgn.ac.in/careers/staff>

The shortlisted candidates will be interviewed online. **Applications will be received until November 6, 2022.**

Dr. Hari S. Ganesh can be contacted *via* email at [hariganesh@iitgn.ac.in](mailto:hariganesh@iitgn.ac.in) .
