Invites applications for the post of

RESEARCH ASSOCIATE – DATA SCIENCE AND SIMULATION

A research associate position is immediately available in the Production and Quantitative Methods (P&QM) area at IIM Ahmedabad. Responsibilities of the research associate include carrying out research on real-world business problems using data science algorithms and analytical methods. Research work includes identifying the right algorithm or a combination of algorithms to solve the business problem and model implementation using Matlab/ R/ Python.

Applicants should have an undergraduate/graduate degree in engineering/operations research/ management science/applied mathematics/ economics/ econometrics, or other-related fields (from Tier-I institutions only) with a strong exposure to programming before the appointment begins. Further, strong written and oral communication skills are a must.

Duration: The position will be initially offered for a period of six months and may be extended depending on performance, at the discretion of the faculty supervisor.

Application and deadline:

Please send an application (along with your CV) indicating your research interests directly to: Anjali Nair (Email: anjalin@iima.ac.in). Please mark "Vacancy position for Data Science and Simulation research project" in the subject line. The last date of accepting applications is March 31, 2023.
