

## **SRF and RA positions at Cellular Immunology Group, ICGEB, New Delhi**

**1. Senior Research Fellow:** Applications are invited for the position of Senior Research Fellow in the Cellular Immunology Group, ICGEB, New Delhi. The position is temporary, with an initial tenure of one year, which can be extended to the maximal duration of the project, year on basis, subject to annual assessment.

**Educational qualifications:** Masters's degree (MSc) in any field of life sciences, physics or Mathematics or M.Tech degree in a related field.

**Requirements:** Only NET/GATE-qualified individuals or those with M. Tech degrees will be called for interviews. Command on computational skills, including C/C++/Python, will be considered favourably. Experience with NGS, RNAseq, CHIP seq analysis etc., will be useful.

**Or,** Experience in molecular cloning, protein cloning, expression and purification in prokaryotic and eukaryotic systems, making stably transfected eukaryotic cell lines, FACS/sorting, immunofluorescence, co-IP, Gateway cloning.

**2. Research Associate (RA):** Applications are invited for the position of Research Associate in the Cellular Immunology Group, ICGEB, New Delhi. The position is temporary, with an initial tenure of one year, which can be extended to the maximal duration of the project, year on basis, subject to annual assessment.

**Educational qualifications:** PhD in any field of life sciences.

**Requirements:** Experience in molecular cloning, protein cloning, expression and purification in prokaryotic and eukaryotic systems, making stably transfected eukaryotic cell lines, FACS/sorting, immunofluorescence, co-IP, Gateway cloning, ChIP, Gel-shift and super-shift assays will be desirable. The RA is expected to independently carry the designated work and should be capable of troubleshooting, amenable to work in a large group and should be highly dedicated and sincere. Experience in small animal handling/experimentation and working inside BSL3 lab will also be considered favourably.

**Or,** demonstrable extensive computational work, including Next Gen Sequencing analysis, RNAseq and CHIP Seq analysis as well as command on computational skills including C/C++/Python will be considered favorably.

Interested Candidates are requested to send their CV to the following email, [\[dhiraj@icgeb.res.in\]](mailto:dhiraj@icgeb.res.in) **clearly marking in the subject line whether the application is for SRF position or RA**

Last date for receiving the application: **31<sup>st</sup> May 2023**

Shortlisted candidates will be asked to appear for an interview.
