A For Pediatric Anaesthesia-2024

1. **Eligibility:** MD/DA Anesthesia/DNB Anesthesia

2. **Clinical exposure:** Chacha Nehru Bal Chikitsalaya (CNBC), a 221 bedded hospital, is among the premier pediatric super specialty institutions of the India. This hospital is the first public hospital in India to get accreditation from National Accreditation Board for Health Care Providers (NABH) for quality in health care. It thus offers comprehensive health care for pediatric population of National Capital Region of Delhi, as well as a tertiary care and referral services for patients from all over Northern states.

The Pediatric Anesthesia department of the hospital handles over 10000 out patients annually in Pre Anesthesia check up (PAC) clinic. Over 2500 operative cases are undertaken yearly. The department has well equipped operation theatre with state of art facilities like Pediatric video bronchoscope , Advanced Anesthesia workstations, Hemocue , Vein viewing device , TrueView, central medical gas pipeline system including central scavenging , plasma sterilizer etc. The department provides peri operative care for all kinds of neonatal and pediatric surgeries including general surgeries, orthopedics, ENT and ophthalmic surgeries. Almost all kinds of laparoscopic, thoracoscopic and arthroscopic procedures are also being done.

Department also performs USG guided nerve blocks and central line placements .

Most of the faculty have an exclusive Paediatric Anaesthesia experience of more than 10 years . They are also trained in all resuscitation related courses like BLS, ACLS, NALS, PALS and ATLS and are involved in BLS and ACLS training with the help of mannequins and other teaching aids.

The hospital library is equipped with latest reference books and online access to reputed pediatric anesthesia journals.

B. For Paediatric Orthopedics-2024

1. **Eligibility :** MS Orthopaedics/DNB Orthopaedics, Indian National
2. **Clinical exposure:** Chacha Nehru Bal Chikitsalaya (CNBC), a 221 bedded hospital, is among the premier paediatric super specialty institutions of the India. This hospital is a first public hospital in India to get accreditation from National Accreditation Board for Health Care Providers (NABH) for quality in health care. It thus offers comprehensive health care for paediatric population of National Capital Region of Delhi, as well as a tertiary care and referral services for patients from all over Northern states.

The paediatric orthopaedics department of the hospital handles over 20000 out patients annually. Over 500 orthopaedic operative cases are undertaken yearly. The department boasts of an all equipped operation theatre with 3D image intensifier system, pediatric arthroscopes, advanced drill system, modern image compatible translucent operative table etc. The department performs all kinds of emergencies, routine and advanced pediatric orthopedic surgeries including bilateral DDH, congenital scoliosis, spinal decompression including intradural bar resections, surgical dislocations of hip, acetabular and femoral osteotomies, multilevel cerebral palsy surgeries, botox applications etc. The department runs specialty clubfoot clinics in collaboration with CURE India on two days in a week. The department has treated over 1800 clubfoot patients till date, one of the largest at a single clinic in Asia.

The department pioneers in research work and academics. The faculty at department of paediatric orthopaedics, CNBC has over 100 publications and book chapters on key

paediatric orthopaedics topics. The department regularly conducts CME and public awareness programmes on various paediatric orthopaedics topics. The department also periodically conducts hands on training of doctors on Ponseti's method of clubfoot treatment. The department was the chosen centre for this year's IOA- JMRF Paediatric Fellowship. The hospital library is equipped with latest reference books and online access to reputed paediatric orthopaedic journals.

C. For Paediatric Infectious Diseases-2024

1. **Eligibility** :MD (Microbiology) / MD (Paediatrics).
2. **Clinical exposure**: Chacha Nehru Bal Chikitsalaya (CNBC), a 221 bedded hospital, is among the premier paediatric super specialty institutions of the India. This hospital is the first public hospital in India to get accreditation from National Accreditation Board for Health Care Providers (NABH) for quality in health care. It thus offers comprehensive health care for paediatric population of National Capital Region of Delhi, as well as a tertiary care and referral services for patients from all over Northern states.

Laboratory exposure: The Department of Clinical Microbiology and Infectious disease is well equipped laboratory with facilities as Automated Blood culture system, automated identification and sensitivity for bacterial as well as fungal pathogens. A dedicated Mycobacteriology laboratory for diagnosis to tuberculosis and analysing the drug susceptibility pattern is available. Serology section is equipped with automated analysers and ELISA platforms for various viral and parasitic diseases. Molecular diagnosis of clinical conditions as neonatal sepsis, meningitis, viral encephalitis and pyrexia of unknown origin are catered with the help of Real Time platforms. In addition department is running a well planned hospital infection control programme in CNBC and is also part of various National Programmes.

The most important step for infectious disease training is to bridge the gap between laboratory result interpretation and Clinical correlation for the same. There have been specialized training course in paediatric infectious diseases in rest parts of world. The spectra of pathogens and infectious aetiology in paediatric population are wide apart as compared to adults. The country lacks specialized training programmes in paediatric infectious diseases so as to train microbiologist and clinicians to deliver dedicated paediatric infectious disease care.

The hospital library is equipped with latest reference books and online access to reputed pediatric infectious diseases journals.
